RAINCLICK HANDSHOWER

Discover the ease of our RainClick handshowers. Showering can be made that much easier, and so much more fun. Now you no longer have to fiddle with your handshower, risk dropping it, or getting your hair wet while switching to a different spray mode. Simply click an ingenious button to decide on your personal favourite spray modes.

We understand the pure joy of expecting something to work when a button is pressed. It's a small touch we added to your handshower, but the difference is surely liberating. Children will find the RainClick Handshower extremely fun, and we know you will (secretly) love it too.

With a white showerhead set in shiny chrome, this seemingly discreet handshower lends an understated touch to any bathroom style.

AN INTUITIVE LITTLE BUTTON YOU WANT TO CLICK, AND CLICK, AND CLICK

Modelled like a light switch, the RainClick offers ease of use with a simple click, what else? Your thumb will instinctively reach out for that button, and who can blame you? That's just a touch of intuitive user friendliness that we know will make you happy.

The soapy struggle in setting a handshower to your desired spray mode is a thing of the past. The RainClick Handshower is easy to use and control. Experience how easily you can switch between a refreshing burst of rain or an invigorating water massage. Showers are now so much more fun, convenient and just a click away.

TRANQUIL, JET OR IN-BETWEEN?

Why have one when you can have three spray modes, plus a fun button to switch between them all? Shower fans will concur that shower enjoyment escalates with different spray modes. We help take your enjoyment one notch higher with our RainClick.

With 3-Spray Functions (Tranquil Rain, Jet Rain or Therapy Rain) pandering to your showering preference, simply throw your head back and enjoy the mode that suits you best. Whether you prefer a consistent and tranquil spray, a powerful jet of massaging water or the best of both worlds, all three pleasurable functions can be found in one convenient button.

Tranquil Rain
Soft, drizzling shower that is perfect for rinsing shampoo out.

Jet Rain
Targeted jet spray that kneads tired muscles.

Therapy Rain
Soothing vortex spray that gently relaxes the body.

AIRNERGIZE TECHNOLOGY COMFORTABLE SHOWER EXPERIENCE

A luxurious shower with 20% water savings. Airnergize Technology provides you with a luxurious shower experience.

Dynamic flow pressure (kPa)	50	150	250	350	500
Flow rate (l/min)	2.53	5.33	6.88	7.55	8.30

24 April 2018

Approval of "AMERICAN STANDARD" Shower Control Valves

Your letter ref. WRC/1675 dated 23 March 2018 refers.

Having considered the test report ref. J21703 issued on 12 February 2018 by Nutek Systems (HK) Ltd., this Authority accepts that the fittings described below comply with, and their use when correctly installed does not contravene, the Waterworks Ordinance and Regulations.

Name of Manufacturer: American Standard

Country of Origin: China

Brand: American Standard

Details of Fittings: 1/2" Concealed shower control valve

Model:
FFAS0925-709500BC0
FFAS0926-709500BC0
FFAS0927-709500BC0
FFAS0928-709500BC0

Body Markings: *American Standard*

Expiry Date:

1 August 2022

This Authority hereby permits the use of the above fittings in fresh water plumbing systems subject to full adherence to Waterworks installation requirements. In particular, you are required to draw your customers' attention to the following requirement-

"The cold water supply to the fittings shall be drawn from the same source that supplies the hot water apparatus so as to provide a balanced pressure and to obviate the risk of scalding in the event of a restriction or failure in the water supply." AND

"The shower head or handspray should not be placed in submerged conditions and should be securely fixed to the original position after use."

A condition of this acceptance is that the fittings to be installed shall be replicas of the samples as certified by the testing agent mentioned above and without modifications. This acceptance may be withdrawn at any time if the standard of the fittings installed fails to meet that of the approved samples or if the fittings are found to be unsuitable for use in fresh water plumbing systems.

This acceptance is only applicable to the main body of the fittings, unless other specified.

For the use of the fittings in any project, the Acceptance Reference Number at the bottom of this letter must be quoted as a means of identification of acceptance of the fittings by this Authority.

Should you have any enquiries, please contact our Engineer Mr. Terry KUNG at tel. no. 3583 4086.

Yours faithfully,

(CHAN Chung Kun)
for Water Authority
