

RESTROOM **HEALTH CHECK**

Touchless & Wellness Solutions

BUILDING VALUE SINCE 1906

DESIGN SAFER, SMARTER SPACES

CHECKLIST HEALTHY RESTROOM DESIGN 360°

1 Overall Risk Assessment

- Assess physical distancing and density requirements
- Evaluate airflow and moisture requirements
- Identify opportunities to reduce or eliminate touchpoints

3 Space Design

- Remove doors or block them open
- Establish queuing strategy
- Develop safe, efficient traffic flow
- Provide signage and signaling tools to encourage desired behaviors

2 Product Selection

- Specify touchless and low-touch products where appropriate
- Ensure reliable availability and cost-effectiveness of consumables, such as soap and paper towels
- Provide adequate waste disposal in all areas
- Enhance toilet compartments with larger panels and additional amenities

4 Mitigation, Cleaning & Maintenance

- Understand building's consumable management strategy and product solutions
- Support ease of cleaning, maintenance and refills
- Develop stockout prevention strategy

BOBRICK PROVIDES HEALTHY, FACILITY-FRIENDLY SOLUTIONS FOR ANY BUILDING:

Standard Use (p. 2-3)
Prioritize touchless products with timeless design and durability.

Heavy Traffic (p. 4-5)
Minimize touchpoints while supporting efficient, long-term maintenance.

Prestige (p. 6-7)
Elevate design with unique, low-profile, low-touch products.

THE RESTROOM DESERVES A CHECKUP

TOUCHLESS IS JUST THE BEGINNING

According to Bobrick research, architects and facility managers agree that minimizing touchpoints is the top consideration in the restroom. But it doesn't end there. Bobrick is proud to support long-term hygiene and peace of mind for users, facilities and building owners.

HEALTH & WELLNESS STANDARDS ARE GAINING MOMENTUM.

Will your project be maintained to these standards?
Ask your client.

INFORMED BY EXPERTS

Bobrick's **Hygiene, Health & Wellness Advisory Board** includes experts in infection prevention, facility management, healthy design and manufacturing.

ARCHITECTS & FACILITY MANAGERS AGREE

Touchpoints and restrooms are both critical challenges*.

*According to research conducted by Bobrick

DID YOU KNOW?

A single restroom can have more than

15 TOTAL TOUCHPOINTS

BUILDINGS AT HIGHEST RISK FOR DISEASE TRANSMISSION:

1. Restaurants
2. Gyms
3. Malls

THE CDC SAYS:

- Encourage frequent, effective hand hygiene
- Control overcrowding and support air quality
- Clean frequently

STANDARD USE

Standard use restrooms should balance the use of touchless products with timeless design and good durability while facilitating long-term maintenance.

HEALTH CHECK

Bobrick has designed this restroom guide based on common criteria found across health and wellness certification standards.

Overall Risk Assessment

- Low cross-contamination risk
- Adequate space to physically distance
- Minimal maintenance load

Product Selection

- 5 touchpoints eliminated with soap dispensers, faucets and 3-in-1 unit
- Reliable, effective hand drying with versatile 3-in-1 unit

Space Design

- Personal space enforced and droplet spread reduced with extended-height partitions
- 3-in-1 unit placed close to lavatory to minimize water trail

Mitigation, Cleaning & Maintenance

- Easily maintained top-fill soap dispensers
- Minimized stockout risk with easy-to-source bulk soap

 Touchpoint Eliminated

 Barrier Extended

 Personal Item Protection

FEATURED PRODUCTS

Hand dryer, towel dispenser and waste disposal in one ADA compliant unit

DuraLineSeries® Gap-Free, Extended Height Partitions
Ensures durability while providing a large physical barrier.

1040-121 Peep No More™ Automatic Occupancy Indicator
Supports privacy and security. Readable from a distance.

WELLNESS FOR THE LONG HAUL

HEAVY TRAFFIC

In high-traffic restrooms, reducing touchpoints is just part of the long-term wellness strategy. Accessories should optimize traffic flow while maximizing consumable lifecycles and maintenance efficiency.

HEALTH CHECK

Overall Risk Assessment

- Low cross-contamination risk
- Optimized maintenance load
- Low distancing risk with excellent privacy

Product Selection

- 5 touchpoints eliminated with soap dispensers, faucets and towel dispenser
- Adaptable hygiene with convertible roll towel dispenser, which can switch to folded towels

Space Design

- Entry/exit door removed for efficient traffic flow
- Personal space enforced and droplet spread minimized with extended-height cubicles

Mitigation, Cleaning & Maintenance

- Versatile soap dispensers accept a variety of liquid soaps and hand sanitizers
- 18-gal waste receptacle helps minimize labor
