SANITARY WARE SPECIFICATION SHEET

GROHE GRANDERA

TOMORROW'S GRAND STYLE

The GROHE Grandera collection is both a homage to an age of grandeur long past and an affirmation of modern sensibility, combining the highest standards of quality and craftsmanship with a love of detail and comfort.

Stylistically, the Grandera collection can be combined with a wide range of bathroom furnishings, with the added flexibility of two colors – chrome and chrome / gold.

Easy to clean thanks to the GROHE StarLight chrome coating

Just wipe the tap down with a dry cloth – the ultra smooth surface finish is scratch resistant and ensures a lasting luminous sheen. You'll save plenty of time cleaning while your tap always looks shiny and new.

GROHE SafeStop (Plus) – double scalding protection at 38°C and (optional) 43°C

Great for homes with children, this safety feature is set at 38°C, preventing you from turning up the water temperature too high. If desired, higher temperatures can be selected by pushing the button. Optional for extra safety: the easy-to-fit GROHE SafeStop Plus limiter ensures that the temperature does not exceed 43°C.

GROHE QuickFix Plus quick and easy installation in a few simple steps

Save time on the installation of your tap with GROHE QuickFix Plus. Consisting of fewer parts, our new system makes the installation process quicker and easier than ever.

Constant water temperature thanks to reliable GROHE TurboStat technology

Our precise control technology ensures an instant water flow at the desired temperature and keeps it constant irrespective of any fluctuations in water pressure or supply.

GROHE EcoJoy with water-saving function for reduced consumption

GROHE EcoJoy reduces water consumption by up to 50% without compromising on performance. Whenever you turn on your tap, you will enjoy a full jet of water while saving money nonetheless.
