## SANITARY WARE SPECIFICATION SHEET

### Tap your feet and free your hands

You can turn on GROHE FootControl taps with a simple tap of your toe on the base unit leaving your hands free and your tap spotless. This new level of kitchen convenience makes it easier than ever to fill heavy pots and clean the dishes or your hands while also leaving the tap sparkling and germ-free.

### Pull-out comfort shower head with two different spray types

Whether washing vegetables, cleaning the basin or filling pots – the pull-out comfort shower head gives you maximum freedom of movement in the kitchen. At the push of a button, you can switch between a fine spray jet and a powerful shower jet at any time, making light work of your kitchen chores.

### GROHE EasyDock – automatic retraction of the shower head into the spout

With our GROHE EasyDock system featuring the Glideflex low-friction hose and a small counterweight made of lead, the shower head retracts smoothly into the spout. Thanks to this technology, the tap is also super easy to install.
