AXION® MSR Wall Mount Eye/Face Wash Model 7260B-7270B wall mounted eye and face wash features the medically acclaimed AXION MSR eye/face wash head assembly (patent pending). This revolutionary inverted flow design is the only product on the market that provides a Medically Superior Response consistent with all EMT, emergency room and doctors' office protocols by sweeping contaminants away from the vulnerable nasal cavity. Traditional eyewashes irrigate from the outside edge of the eye back toward the nose, where contaminants can then be flushed into the nasal cavity through the lacrimal punctum, nature's ocular cavity drain. Eyewash streams provide Zero Vertical Velocity™ stream engineering with even laminar flow for enhanced comfort, stability and effectiveness Unit features a round 11" (27.9 cm) green ABS plastic receptor and aluminum wall bracket for long life Includes a mesh in-line strainer to collect line debris, and ball valve with stainless steel ball and stem for durability Supply: 1/2" NPT. Waste: 1- 1/4" NPT		

* All information of the above is for the reference only. No prior notice is made if any changes.

Dust Cover

Model 9091 yellow plastic dust cover for the AXION® MSR eye/face wash head.

Mounting Bracket

Model SP80 cast-aluminum wall bracket with chromate protective finish.

In-Line Strainer

Model SP509 chrome-plated brass in-line 50 x 50 mesh water strainer.

Universal Eyewash Sign

Model SP175 vertical universal emergency eyewash sign. Size: 8" x 10-3/4" (20.3 x 27.3 cm).

Eyewash Bowl

Model SP93 11" (27.9 cm) round green ABS plastic receptor. Resistant to damage from alkalis, salt solutions, oils and most acids.

AXION® MSR Eye/face Wash Head

Model SP65, AXION® MSR eye/face wash head with inverted directional flow, laminar flow, and integral flow control.

Ball Valve With Flag

Model SP229 chrome-plated brass stay-open ball valve, equipped with a stainless steel ball and stem.
