ECO HANDLE FAUCETS

PROVIDES UP TO 30% ENERGY SAVINGS

Unlike conventional mixers, Acacia Evolution's Eco Handle releases cold water instead of warm water upon lifting the lever. This saves you precious energy as it prevents the boiler from heating up, resulting up to 30% energy savings. To get hot water, you only need to move the lever to the left.

CLICK TECHNOLOGY

PREVENTS WATER WASTAGE

By providing a resistance midway when lifting the lever, this technology gives you better water volume control, saving you precious water.
