BLANCO

GERMANY

Installation from above

Classic installation from above with a conventional profiled rim.

- Large selection of sinks in stainless steel, SILGRANIT™ PuraDur™ and Ceramic
- Suitable for all worktop materials
- Uncomplicated and quick installation

BLANCO ZENAR XL 6 S, Ceramic PuraPlus™

Undermount

Smooth, continuous installation of bowls and sinks for a harmonious overall impression.

- In addition to the wide range of special bowls for undermount installation in stainless steel, SILGRANIT™ PuraDur™ and Ceramic, almost all our inset stainless steel and SILGRANIT™ PuraDur™ sinks are suitable for undermount installation
- Suitable for worktops in natural or artificial stone, ceramic or glass
- Special supporting elements are used to secure the sink to the underside of the worktop, then it is jointed with sealant

BLANCO ANDANO 450-U, stainless steel

Double the comfort: BLANCO QUATRUS R15 435/280-IU.

The eye-catching drain grooves in the base also add visual accents.

BLANCO QUATRUS R15-IU is a versatile bowl programme for the most diverse requirements.

With a range of seven differently-sized, large and deep bowls and bowl combinations with a concise corner radius, BLANCO QUATRUS will fit in any modern kitchen design.

The eye-catching drain grooves in the base not only add a visual accent, but also emphasise the functionality of the bowl.

For worktops made of natural or artificial stone: the QUATRUS family for undermounting.

Installation from above is ideal for worktops made of laminate.

What is particularly practical is that all the bowls in the BLANCO QUATRUS R15 family are suitable both for undermounting and for installation from above, and so can be fitted in any worktop.
